

## Adult Website Compliance Requirements

### Sites

1. Please provide complete and non-expiring login information for all relevant websites submitted.
2. Place the EU corporation name and registered address to the pay-sites' tour-pages, join-pages, secure payment pages (SSL) and the support-sites.
3. Link each tour-page, join-page and payment-page to the corresponding support-site. *Note: each pay-site needs its own dedicated support-site.*
4. Add the toll-free numbers to the support-sites. *Note: each support-site requires a distinct toll-free number.*
5. Please list your Terms and Conditions on the join-page and payment-page. *Note: the place of jurisdiction needs to match the EU country of incorporation. The billing model and cancellation policy need to be clearly explained.*
6. The privacy policy needs to contain the following statement and all conflicting sections need to be removed: "No personal information will be shared with any third parties without the customer's permission."
7. Please add the following statement to the join-page and payment-page: "Your credit card will be charged immediately after your order by the name of [insert the corresponding descriptor]. We recommend keeping a copy of your transaction data."
8. The video and picture content in the members' area needs to be operating and different on each pay-site.

### Descriptors

A descriptor consists of the support site name and the toll-free customer support number. For example, "supportsite.com 800-123-4567". Each descriptor can have up to 32 characters including all spaces, dots, dashes, and the toll free number. *Note: this requires your support site URL length to be no greater than 20 characters (not including the www.).*
